Please note: All trails are two-way trails and can be used in either direction. The trail system is open to the public seven days a week. Although trails may be open, conditions are not guaranteed. Avoid hiking, dog use and other activities that can degrade or damage groomed trail surfaces that are marked for skiing.

CHENA LAKE

Recreation Area

Chena Lake Recreation Area is a 2,178 acre park located east of North Pole. The park offers multiple outdoor activities including, skiing, walking, snowshoeing, snow-machining, ice fishing, aurora viewing and photography in the winter.

WINTER ACTIVITIES

Ice Fishing

Chena Lake Recreation Area is stocked with Rainbow Trout, Silver Salmon, and Arctic Char in the winter. The park rents ice-fishing houses by the day. Your ice house rental comes with a bundle of firewood for the woodstove and pre-drilled ice holes.

Skiing and Snowmachining

During the winter months, classical cross-country ski trails at the River Park with 2.5 km , 4.0 km , and 5.5 km loops are groomed. In addition, a multi-use trail with 3.8, 5.5, 6.5, 9.5, and 12 mile loops for snowmachiners, skate skiers, skijors, dog mushers, walkers, and snowshoers is also maintained.

Aurora Viewing

Chena Lake Recreation Area is an excellent location for aurora viewing due to its wide open areas and a large lake, away from the city lights. If you're feeling like a walk, there are several winter trails on and around the lake. We recommend taking a headlamp or a flashlight. Two-wheel drive vehicles are acceptable during the entire Aurora Season except during extreme stormy conditions.
